RPG_JourneyToUnknown by Sunwoo Yeom

** Project Overview **

2D Story Based Top Down RPG Made with Using RPG Maker MZ

The main character, Newton, begins his journey to solve the mystery surrounding

the Unknown that appeared decades ago, which destroyed the world by flooding

monsters.

** How to Run **

https://sunwoo1337.github.io/JourneyToUnknown_Web/

Assets Used

Please Use **Repo for Web Host link** to check below files.

Repo for work is to **check my commits and works**. It contains unnecessary files

and excludes any codes that are generated while deploying games on the web.

File Name : HP Bar Plug In

What is it : a plug in that displays hp bar

Where it comes from : https://github.com/theoallen/RMMZ/tree/master/Plugins

Who created : theoallen

File Name : img folder

What is it : folder containing every img assets I used for project

e.g battle backgrounds, characters, faces, systems

Where it comes from : RPG Maker MZ Assets

Who created : RPG Maker MZ

File Name : effects, fonts, icon folders

What is it : folder containing every assets that are used to describe in game effects,

fonts and icons

Where it comes from : RPG Maker MZ Assets

Who created : RPG Maker MZ

File Name : audio folder

What is it : folder containing every audio assets I used for this project

Where it comes from : RPG Maker MZ Assets

Who created : RPG Maker MZ

File Name : Zombie.png, end_1.png

What is it : images I used for project that are not from RPG Maker MZ

Where it comes from : Chat GPT

Who created : Me and Chat GPT

Codes

File Name : css, data, js folder + .json files

What is it : all the code files that are generated while I work on project

Where it comes from : RPG Maker MZ

Who created : Me and RPG Maker MZ

** Others **

File Name : design folder

What is it : Every files for Design such as Updated Milestone and Commits to prove my works

Who created : Me
